ALLAN LINE ROYAL MAIL STEAMERS
TO LIVERPOOL
—CALLING AT MOVILLE, LONDONDERRY—

Turbine-Engine Steamers Building
VICTORIAN, 12,000 Tons. VIRGINIAN, 12,000 Tons.

New Steamers
TUNISIAN, 10,575 Tons, Twin Screws. BAVARIAN, 10,375 Tons,
Twin Screws. IONIAN, 9,000 Tons, Twin Screws.

These fine new steamers sail every Friday to Liverpool calling at Londonderry.

The steamers are amongst the largest and finest in the Transatlantic Lines, and are excelled by none in the accommodation for all classes of passengers. The Saloons and Staterooms are amidships, where least motion is felt, and all above the main deck, thus securing perfect light and ventilation. Bilge keels have been fitted to all the steamers, which has reduced the rolling motion to the minimum. The vessels are also fitted with Marconi's system of wireless telegraphy.

Electric lights are in use throughout the ships, and the cabins have all the comforts of modern first-class hotels. Cuisine is unsurpassed.

1904	PROPOSED SAILINGS	1904
Fm. Liverpool Steamers	From Montreal	From Quebec
13 Oct.,... IONIAN	Fri. 28 Oct., 5.30 a.m.	Fri. 28 Oct., 3.00 p.m.
20 " BAVARIAN	4 Nov. 9.00 "	4 Nov. 10.00 "
27 " PARISIAN	11 " 6.00 "	11 " 3.00 "
3 Nov. TUNISIAN	18 " 9.00 "	18 " 9.00 "

TUNISIAN embarked mails and sailed from Rimouski, Sunday, September 6, 1903, 12.25 noon; arrived at Moville and landed mails Saturday, Sept. 12. Time of passage, after deducting difference in time, 6 days, 5 hours, 27 minutes.

BAVARIAN is a twin steamer to TUNISIAN (10,375 tons), made over 20 miles per hour on trial trip. Time of passage, Moville to Rimouski, 6 days, 8 hours, 12 minutes, the fastest on record over this course.

IONIAN—latest addition to the fleet (9,000 tons, twin screws.) Average time of this Steamer, on her five passages between HALIFAX and MOVILLE is 7 days, 6 hours. Her record passage is 6 days, 12 hours, 27 minutes. (Sept. 18th to 24th, 1903.)

PARISIAN sailed from Rimouski Sunday, October 20th, 10.15 a.m., and arrived at Moville Sunday, October 27th, 7.30 a.m. Deducting difference in time, 4 hours, 50 minutes, the actual time of passage was 6 days, 12 hours, 39 minutes.

Greatly reduced rates now in effect. For further particulars, apply to any Agent of the Company.

The Royal Military College

THERE are few national institutions of more value and interest to the country than the Royal Military College at Kingston. At the same time its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution designed primarily for the purpose of giving the highest technical instructions in all branches of military science to cadets and officers of Canadian Militia. In fact it is intended to take the place in Canada of the English Woolwich and Sandhurst and the American West Point. The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and in addition there is a complete staff of professors for the civil subjects which form such a large proportion of the College course.

Whilst the College is organized on a strictly military basis the cadets receive in addition to their military studies a thoroughly practical, scientific and sound training in all subjects that are essential to a high and general modern education.

The course in mathematics is very complete and a thorough grounding is given in the subjects of Civil Engineering, Civil and Hydrographic Surveying, Physics, Chemistry, French and English.

The object of the College course is thus to give the cadets a training which shall thoroughly equip them for either a military or a civil career.

The strict discipline maintained at the College is one of the most valuable features of the system. As a result of it young men acquire habits of obedience and self-control and consequently of self-reliance and command, as well as experience in controlling and handling their fellows. In addition the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures good health and good physical condition.

An experienced medical officer is in attendance at the College daily.

Seven commissions in the Imperial regular army are annually awarded as prizes to the cadets.

The length of course is three years, in three terms of 9½ months' residence each.

The total cost of the three years' course, including board, uniforms, instructional material, and all extras, is from \$750 to \$800.

The annual competitive examination for admission to the College will take place at the head-quarters of the several military districts in which candidates reside, in May of each year.

For full particulars of this examination or for any other information, application should be made as soon as possible, to the Adjutant General of Militia, Ottawa, Ont.

Editorial.

With this, the first number of the OUTLOOK for the session of 1904-1905, the new board makes its bow to the students of old McGill, and wishes them a happy and prosperous year.

This term, as in former years, the first number of the OUTLOOK has been distributed free among the students in order that the Freshmen

who are not familiar with their college paper may make its acquaintance, and that the other students may be reminded that the support which they have given the paper in the past is needed just as much or more this year, in order to make it a success. It is the duty of every man in McGill to subscribe to the OUTLOOK and to help in this way to make it a publication worthy of our Alma Mater, and one that can take its place side by side with the best American college weeklies.

We trust, however, that the OUTLOOK board for this year will have no complaint to make on the score of poor support, and that with the co-operation of the student body we may keep up to the high mark established by the boards that have preceded us. In this regard we would like to congratulate last year's staff on the success which has crowned their efforts in putting the OUTLOOK on a firmer base in every way, and also to thank them for the assistance they have given us so far in getting our work well started.

In order that Saturday matches may be reported in the OUTLOOK, it has been found necessary to change the date of publication from Tuesday to Thursday in the future. This will mean that the reporters of the different classes will have to hand in their reports not later than Friday night. Those that come after that will not be printed.

The Editor received the other day some written suggestions, which owing to lack of space cannot be printed, in regard to the question of the "rooting" at the football games. The writer suggested that each year should elect a "yell leader" to stand in front of the crowd and coach the cheering in a systematic manner, as is done at such universities as Yale and Harvard. There is certainly some remedy needed for the very weak cheering which our teams get in their home games, and this system of yell-leaders for each year seems to be a good one. We would suggest to the Athletic Association, if the matter has not already received their attention, that they should request each year to choose a man with a strong voice to fill the position.

Good support from the stands does a great deal to put snap and heart into a team, especially one that is losing, and a well-organized "Old McGill" should be a potent factor in the winning of our approaching games with Varsity and Queens on the campus.

McGill has certainly entered upon a new era of growth and prosperity; not only is the Conservatorium of Music an accomplished fact, and the new McGill Union Club and the Y. M. C. A. buildings well under way, but the prospects for a magnificent gymnasium grow brighter every day, and there is little doubt that next year the building will be commenced. Lord Strathcona and Sir William Macdonald have each promised \$25,000 towards the fund, and there should be little difficulty in collecting the rest of the required amount from other sources.

The rapid progress of the new Y. M. C. A. building has called forth many expressions of wonder, and next spring will see its doors open to the students. It will be five stories high, of which the three top flats will be devoted to dormitories to accommodate sixty men. In the basement there will be bowling alleys and a large dining room, while the ground and first floors will be given up to the rooms of the Association and will include an assembly hall to seat 400 people, a large library, a sitting-room, and above all a well-appointed office for the OUTLOOK.

The new Y. M. C. A. will be no mean addition to the fine buildings which McGill can already boast of.

Work on the excavations for the McGill Union Club is making good headway, and the foundation should be finished this fall. Sir Wm. Macdonald donated the site at the corner of Victoria and Sherbrooke Streets, and with the addition of the

site occupied by the Hon. Mr. Boyer's house, which is now being torn down, the area of the ground floor will be very large. Besides the land, Sir Wm. Macdonald has already given about \$125,000 towards the building fund, and when one realizes that the furniture alone will cost over \$25,000, one can form a good idea of the ornament which the new Union will be to the college. Prof. Nobbs is one of the architects engaged on the work.

An attractive syllabus has been published for the Conservatorium of Music. Its list of teachers includes all the best professional talent of Montreal, and its establishment should be a great boon to musicians generally throughout the country. The Conservatorium is the gift of Lady Strathcona, and is well adapted for the purpose.

In concluding this editorial, we desire to call the attention of our subscribers to the question regarding the patronage of those who advertise in the columns of the OUTLOOK. While a large number of firms do so out of compliment to the University and their Alma Mater, yet many others are actuated by purely business motives, and the student-body should do their best to place their custom with those who support the college publication in preference to with those who do not.

LA SAINT-YVES.

The Laval Legal Fraternity entertains McGill Law men.

Every year in honour of their patron-saint, Saint-Yves,—the only saint, by the way, who remained a lawyer all his life and entered heaven—the law students of Laval storm the cars of the Terminal and rush to Bout de l'Isle

on pleasure bent. In the past, McGill had been represented by one man, but this time all precedents were cast to the winds and the whole body of Law Undergraduates of McGill was invited.

Frank McKenna, Walter S. Johnson, Sim J. Shepherd, G. C. Papineau-Couture, and A. P. Mathieu were the lucky ones who went. Everything was free: The cars were put at the disposal of the students by the Terminal; at Bout de l'Isle a free bar, free cigars, free music, free lunch! And the freest gaiety and jollity reigned. The boys were perfectly at home with the Laval men—their only regret was the shortness of the day.

The greatest praise is due to Mr. O'Sullivan, President of the Law Students, and to Mr. Loranger, President of the Notarial Students, for the organization of the fête. But one and all of the Laval men are to be thanked for their open-heartedness, their generosity and their conviviality.

May Saint-Yves' anniversary soon come around again!

THE UNIVERSITY LECTURE.

To a crowded gathering, Principal Peterson addressed the annual lecture to students in the R. V. C. Hall on Thursday. The occasion was that of the founder's birthday, which will henceforth be the date for the University lecture.

Whether awed by the splendiferous attire of the professors or restrained by the presence of so many ladies, the boys were on their good behaviour, and with the exception of a small demonstration as the Principal prepared to speak, everything was peace.

Judge Archibald, who occupied the chair, made a few opening remarks, and the Principal began with a eulogistic reference to the founder,

James McGill; passing to the subject of the Students' Union, in course of construction he said, this institution is bound to be a power in the University, and the favor with which the idea is being regarded, is attested by the fact that the scheme is being adopted by some of the larger American universities. He then dealt in turn with the condition of McGill's several faculties, and in a few felicitous remarks, spoke of the new Conservatorium, which fills a want long felt in the college community. The Principal in speaking of the Law Faculty pleaded for its enlargement, and mentioned that Law's most crying need is a chair of English common law, to furnish it the means of attracting students from other provinces. Loud applause met his allusion to Mr. Archibald, a McGill graduate who is now a professor in Cairo University. Dr. Peterson then touched upon the tendency to rush back to the classics which so characterized the late movements of scholarly bodies, and remarked that it was a thing immensely gratifying to the few who have been pleading for the retention of a "tincture of letters."

The Rhodes Scholarships, he believed would be not only a tie between Colonies and Motherland, but of the utmost benefit in bringing the most capable of young Colonials to find their life-work side by side with the great men of the Empire at home.

OFFICERS OF THE YEARS.

Freshmen Class, 1908:—

President, Geo. Shanks, B.A., Med.; Vice-Pres., T. Campbell, B.A., Med.; Treasurer, Simpson, Med.; Secretary, L. P. Churchill, Med.

Sophomores Class, 1907:—

President, F. W. Bates, Arts; Vice-Pres., A. L. McLennan, Med.; Secretary, A. F. Pringle, Sci.; Treasurer,

C. E. Ruble, Med.; Rep., A. L. Johnson, Med.

Juniors Class, 1906:—

Treasurer—L. P. Churchill.

Reporter—G. S. Fenton.

TORONTO DEFEATED!

match appeared almost hopelessly lost.

The result of the game was certainly a big surprise to the majority of the Toronto supporters, who, though they grumbled a good deal about the weakness of their team, were confident that it could defeat anything that McGill might put on the field. The loss of their quarter back, and of "Casey" Baldwin was undoubtedly felt, but was no more serious than the loss of Trenholme and Flanders to McGill. The stories, too, of disgruntled Toronto supporters, about one week's practice for the team, poor condition, etc., were hardly borne out by the result of the game. In the second half Toronto scored seven points to McGill's two.

which would indicate that the condition of the former team was, if anything, the better of the two. McGill deserved to win. They played steadier ball and displayed far more snap and judgment than did their opponents.

It was "Alfy's" first year as captain of the McGill first XIV, and the result shows that the confidence the students have in the little full-back, is fully justified. He played a splendid game personally, and saved several scores by clever plays. He was all over the field, strengthening the weak points and coaching the men.

A large measure of credit for the success of the team is due to Captain Hamilton. To T. M. Fyshe, the manager, a great deal of praise is also due. A team is always difficult to manage on its first game, but Mr. Fyshe showed great ability, and made every possible arrangement for the well-being and comfort of the men.

Though there was some talk among Toronto supporters after the game, against the referee, that official was, on the whole, satisfactory. He may have made a few mistakes, but he was strictly impartial and enforced the rules as far as was in his power. The weather conditions and the fact that it was the first of the year, made the game very difficult to referee.

THE GAME.

It was ten minutes to three when the referee's whistle blew and the ball was put in play. The McGill's team had been on the grounds for some time, but the Toronto team were rather late in arriving. After a few words of caution by the referee, the teams lined up as follows:—

Toronto.		McGill.
Laing,	Full-back,	Hamilton,
		(Capt.)
McPherson,	Halves,	Zimmerman.
Kennedy,	"	Richards.
McKay,	"	McPherson.
G. Biggs,	Quarter-back,	McCallum.
Johnstone,	Scrimmage,	Benedict.
Christie,	"	Beckwith.
Burwell,	"	McPhee.
Jermyn,	Wings,	Malcolm.
Burns,	"	Stephens.
Davidson,	"	Hammond.
Ritchie,	"	Lea.
Ross,	"	Sharpe.
Reynolds,	"	Martin.

The Officials were:—Referee, Dr. Etherington, Queens; Umpire, Dr. Richardson, Queens; Time Keepers, G. Fleck, Toronto; Sutherland, McGill.

Toronto kicked off, Richards returned to Kennedy, who passed to Jermyn, Malcolm brought him down by a splendid tackle, and the ball went into scrimmage. By a series of fierce attacks Toronto drove the ball down to McGill's twenty-five yard line, where Zimmerman secured, made a beautiful run and was only tackled in centre field. A pretty punt by Kennedy and a fumble of a difficult catch brought the play to McGill's 10 yard line, with the ball in Toronto's possession. McGill secured a free kick, but Kennedy punted back and only a clever play by "Alfie" saved a score. But Toronto were following up hard and would not be denied, for a few moments later McPherson was forced to rouge, Toronto having secured a free kick near McGill's line.

Score, Toronto 1, McGill 0.

Toronto continued to press McGill hard, but the half-back line worked splendidly, Zimmerman in particular doing some fine work. The ball now stayed near the McGill line and in a scrimmage McCallum was laid out for a few minutes. Play being

resumed, Toronto took the ball almost to McGill's line, but they lost it in scrimmage, and play returned to centre field. The McGill halves punted for big gains, Hamilton finally placing the ball well over Toronto's line. Sharpe followed up so closely that McKay was forced to rouge.

Score, McGill 1, Toronto 1.

A series of long punts followed, McPherson clearly out-punting the Toronto halves. Toronto secured a free kick, but Hamilton returned to centre field. The McGill wings were playing a splendid game, breaking through at will and following up hard. Zimmerman kicked the ball into touch near Toronto's line and McGill secured the ball on the throw in. After a series of desperate scrimmages, the ball was kicked over the line and Sharpe following up hard secured the first touch down for McGill.

Score, McGill 6, Toronto 1.

McGill failed to convert, but still forced the play. Toronto could not cope with the speedy McGill wings, and only the brilliant work of Kennedy saved another touch. A splendid series of passes between Zimmerman, Malcolm and Lea took the ball well into Toronto territory, McPherson kicked the ball over and Stephens, following up, forced a rouge.

Score, McGill 7, Toronto 1.

Only a couple of minutes remained, but McGill still forced the play and seemed sure of another score, when the whistle blew for half time.

Both teams repaired to the dressing rooms, or rather the apologies for such, that the Toronto Football Club sees fit to provide for the players. The one assigned to the McGill team was for various reasons unfit for use, so the heated players were forced to spend the time walking up and down outside in the drizzling rain.

THE SECOND HALF.

There had evidently been some heart to heart talks in the Toronto dressing room at half time, for when the ball was kicked off the Toronto team showed a decided improvement all through. They forced the play from the start, and Kennedy, out-punting the McGill halves, steadily gained ground for his team. Jermyn, too, was playing a great game, and by following hard on the ball finally forced a rouge.

Score, McGill 7, Toronto 2.

Toronto still continued to force the play. Our wings broke through continually, but the slippery ground prevented them from getting near the halves in time to prevent them kicking. Toronto thus gained ground steadily, and splendid work by Zimmerman and Hamilton alone saved scores. McCallum who was playing a fierce and plucky game was again hurt, and play was stopped for a short time. A free kick from McGill's 25 yard line and a succession of fumbles brought the ball in very dangerous territory. McKay finally kicked well over McGill's line, Hamilton was hard after it and fell on the ball, with three Toronto men on top of him. It was clearly a rouge, but for some unknown reason the referee chose to call it a touch down and the score stood 7-7.

Kennedy succeeded in converting, the ball hitting the post and glancing over the bar.

Score, Toronto 8, McGill 7.

There was now but nine minutes left to play and McGill seemed beaten, but her handful of supporters did not give up hope. High above the wild roar of the hundreds of Toronto rooters came the old McGill yell. M-C-G-I-L-L-, it rang across the field, and the boys seemed to brace up as they heard it.

From the kick off it could be seen that McGill was going to win that game, if desperate playing could do it. In spite of the efforts of the varsity boys, in spite of the wild cheers of the crowd, the men in red and very dirty white, slowly forced the ball down the field. Now scrimmaging, now punting, now by a series of brilliant passes, they worked their way towards the Toronto line. Richards punted the ball over with the entire McGill line following up, but Biggs got it and brought it almost into safety, when he was crowded back for a safety touch, making the score

McGill 9, Toronto 8.

While the McGill rooters nobly assisted by a number of the fair sex, cheered themselves hoarse. That was all there was to it. During the remaining four minutes of play McGill more than held their own, and would probably have scored again had not the whistle blown for time. Then the fourteen tired men in very dirty red and white trotted off the field, while the handful of supporters cheered to their hearts' content, and the rest of the great crowd filed slowly and silently out of the grounds.

NOTES ON THE GAME.

Kennedy, Toronto's centre half, is a great punter, but if crowded is apt to fumble. McGill should remember this next game.

The McGill scrimmage was clearly superior to their opponents, and did much to secure the victory. The wings also put up a magnificent game, Malcolm and Martin being especially noticeable.

"Casey" Baldwin, the Toronto captain was injured in a rather curious way a few days before the game.

He was doing gymnastic stunts on the door in his room when he fell over a chair, breaking two ribs.

After the game, the McGill team and supporters crowded into a tally-ho and "did the town." They drove down Yonge Street, giving an assortment of McGill yells and songs, that caused the crowds to block both sides of the street during the entire journey. "Who won?" shouted a voice from the crowd as the tally-ho was nearing King St., "Who won!" answered "Rusty" indignantly, "what do you suppose we're coming down Yonge St. for?"

INTER-CLASS SPORTS.

Medicine, '08 takes first place with Third Year Science second.

In spite of a dull and chilly day, with lowering skies and occasional splatters of rain, the Inter-Class sports were held for the first time, a week ago Saturday, and were a complete success. Great interest seemed to be taken not only by the competitors in the track and field events, but by the student body at large, and the attendance, considering the weather, was very fair indeed. The loss of so many of McGill's old-timer stars and standby's, such as Morrow, Gibson, Ogilvie and Lochhead, had caused a general feeling around college that McGill's chances in the Inter-Collegiate meet this year would be very slim indeed, but those who watched the athletes training every day came to the conclusion that there was still talent in the University that was in no way unworthy to uphold the reputation of Old McGill.

That the hopeful ones were right in their conjectures, was proved in the first event of the afternoon, the 100 yard dash. The entry list was a

long one and four preliminary heats were required. The runners to compete in the final, M. J. Carney, Sci. '07; R. A. Donahue, Med. '08; G. E. McCuaig, Sci. '06, and H. G. Archibald, Sci. '07 finished in the order named after a hard struggle. The time, 10 4-5 seconds, was very creditable considering the day and the fact that a strong and gusty wind was blowing down the track.

The third event, the broad jump, was closely contested. Ryan, though present, did not compete, but Donahue's jump of 19 ft. 8¼ inches, was within two inches of the winning jump at the last inter-year games, so there seems to be no reason why McGill should not take this event in the Inter-Collegiate, as she has always done. G. F. Baird came second, but a few inches behind Donahue; G. E. McCuaig was third, and G. McIntosh, Med. '05, fourth.

In the half mile run, some twelve men were entered and an exciting race resulted, Gamble, Sci. '07 winning out from Powell, Med. '08, by a few feet. E. H. Greey, Med. '07 was third, W. Stewart, Arts '05, fourth.

The pole vault was decidedly better than at either the Inter-year or Inter-Collegiate sports last year. A. Cummings, Med. '05, won the event, with DeBeck, Arts '06, second; C. Christie, Sci. '06, third, and C. W. Davis, Arts '07, fourth.

Gus. McIntosh won the hammer throw easily, as expected. The best distance was somewhere around 95 feet. J. McGoune, Med. '06; J. J. McNab, Sci. '06, and F. Bates, Arts '07, took the other places in the order named.

The two hundred and twenty yards dash was won handily by Donahue. McCuaig was a close second, with Hawkins, Arts '08, in third place. The time, 24 seconds, was as good as could be expected under the circumstances.

W. J. Scott, Med. '05, took the mile run, not being pressed very hard. Gamble, Sci. '07, was second, with Stewart, Arts '05, and McMeekin, Sci. '06, in the remaining places. The winner's time was 4.52, about equal to that made by Lohead in the Inter-year sports last year.

Waugh, Med. '08, was in good form and took the high jump without much trouble. Beaubien, Sci. '06, surprised all by taking second place, beating out Davis, Arts '07, and Powell, Med. '08, who had been reckoned dangerous competitors.

R. A. Donahue, Med. '08, furnished the surprise of the afternoon, when he beat out Gus. McIntosh in the next event, by putting the shot 34 ft. 10¼ inches. McIntosh seemed to have the event cinched, but the freshman was game and on his last attempt beat his opponent out. J. M. Young, Med. '06, was third; Beaubien, Sci. '06, fourth.

O. Waugh took the 120 yards hurdles without much difficulty. C. W. Davis, Arts '07, ran a good race for second place, A. G. Morrison, Sci. '08, was third. 17 4-5 seconds was the time made by the winner, and was indeed remarkable under the prevailing conditions.

The quarter mile furnished the best race of the afternoon. It was a desperate struggle between McCuaig, Sci. '06, and DeBeck, Arts '06. The two came down the stretch almost abreast, but McCuaig was a little too fast for his opponent and crossed the line in first place. J. D. McKenzie, Arts '05, and G. Wilson, Arts '07, took third and fourth places respectively.

The two mile run was won by Kenyon, Sci. '07, who ran a plucky race, and who with training should make a good man for this distance. Scott, Med. '05; Estey, Sci. '07, and Dave Ross, Sci. '06, took the other places.

The discus throw was won by Beaubien, who hurled the classic missile some 95 feet from a standing throw, Steedman, Arts '07, also made a good attempt and took second. McIntosh Med. '05, was third; Young, Sci. '06, fourth.

Science, '06, was announced as the winning class, but it was found later that the scorers had made a mistake, and that the highest number of points had been scored by Med. '08.

Summary: Med. '08, first, with 27 points; Science, '06, second, with 25 points; Med. '05, third, with 21 points, and Science, '07, fourth, with 16 points. Four points were given for a first place, three for a second, two for a third, and one for a fourth.

We certainly should feel much more confident of the outcome of the Inter-Collegiate sports, after the splendid showing made in the Inter-Class events. Donahue, who by the way made the highest individual score. Carney, Beaubien and Gamble, are entirely new additions to the track team, but all appear to have made good, and will be a big factor in the coming struggle with Toronto. That three of these men are in the two junior years, is an encouraging sign, as McGill will be able to depend on their services for some years to come.

Many of the records made were most creditable, and would have been in all probability better had the weather been more favorable. The track moreover, was none too good, and the hurdles had to be run off on the sod. Altogether it would seem that McGill need have no fear that this year as in the past, she will have a track team that will not discredit her even if defeated.

A word should be said for the officials, under whose direction the events were run off as smoothly as could be desired.

The judges of track events were:—

Principal Peterson, Dean Moyse, Prof. Walton and Dr. Elder; the judges of field events, M. McNeil, E. M. Benedict and F. J. Tees.

Timekeepers:—Prof. McLeod, Dr. McTaggart and H. Coussirat.

Clerks of the Course:—H. L. Price and F. G. Wickware.

Scorers:—G. E. Brennan and E. Worswick.

Starter:—Thos. Graydon.

ASSOCIATION FOOTBALL.

The following officers have been elected for the present season:—

Hon. Pres.—Prof. McLeod.

President—J. M. Forbes, Sci. '06.

Vice-Pres.—J. H. McDermott, Med. '05.

Secretary—S. W. Werner, Sci. '07.

Treasurer—G. H. Brunner, Sci. '06.

Capt.—R. W. Boyle, Sci. '05.

Vice-Capt.—C. Williard, Sci. '05.

Committee—D. R. McCowen, Med. '07; W. MacDonald, Sci. '07; J. E. Featherstone, Arts '06.

The game of association football is rapidly coming to the front as one of our most popular games. —s year the number of men playing has greatly increased, and from 50 to 60 men have already turned out.

Permission has been granted the club to enter a team in the City Association League.

The first league game will be played on October 15th. It is confidently expected that at least one game of the series will be played on the McGill Campus. Practices are arranged at rather irregular times due to the grounds being otherwise occupied, but a settlement of this question is now in the hands of the Grounds' Committee.

Correspondence with Queen's has disclosed the fact that they are with us in booming the old game, and a

match with that college this year is in sight.

Old players who have not as yet turned out are invited to do so, as well as any who wish to learn the game. As the 1st team will be chosen during the next few days, all players must turn out regularly.

THE FOOTBALL SCHEDULE.

The following schedule has been arranged by the Executive of the C. I. R. F. U. for the season of 1904:

SENIOR SERIES.

- Oct. 8—McGill at Toronto University.
- Oct. 15—Queen's at McGill.
- Oct. 22—McGill at Queen's.
- Oct. 29—Queen's at Varsity.
- Nov. 5—Toronto University at McGill.
- Nov. 12—Toronto University at Queen's.

INTERMEDIATE SERIES.

A.

- Oct. 8—Toronto University at Trinity.
- Oct. 15—Trinity at McMaster.
- Oct. 22—Toronto University at McMaster.

B.

- Oct. 15—R. M. C. at Queen's.
- Oct. 22—Queen's at R. M. C.

C.

- Oct. 22—Bishop's at McGill.
- McGill at Bishop's.

D.

- Oct. 29—Winner A *vs.* winner B at Toronto.
- Nov. 5—Winner A *vs.* winner B at Kingston.

FINALS.

If winner of D is a Toronto team, one game in Kingston, Nov. 12.

If winner of D is a Kingston team and winner C Bishop's College, one game at Montreal, Nov. 12.

Or if winner of C is McGill, two games—one at Montreéal, Nov. 14, and one at Kingston, Nov. 21.

THE BOXING CLUB.

Those who derived pleasant and profitable instruction last year from Mr. Jacomb, will be pleased to learn that his classes will soon be re-opened, while the executive have not yet called a meeting to engage for the term, this will doubtless be done in the near future and all arrangements made for a successful term's boxing. The loons of the manly art found the boxing club to fill a long felt want last year, it being much more effective and successful than the more exclusive boxing classes of former years. The membership last year was large, and with so well-known and competent an instructor as Mr. Jacomb, many of the members gained considerable proficiency in the art. Doubtless at the end of this season another tournament will be held, at which the present champions, Messrs. Drysdale, Brown and Benedict will have to defend their titles gained last spring.

THE ATHLETIC ASSOCIATION.

Officers Elected—Harriers Club
A Filiated.

A meeting of the Committee of the Athletic Association, formed last spring to have general supervision over all college athletics, took place Monday evening, October 3rd. The President, elected by the student body, according to constitution, F. J. Tees, Med. '05, presided. A great deal of business connected with the management of athletics, etc., was

brought up and various motions were passed which are now under consideration by the Committee on Grounds and Athletics, a full report of which will appear in a subsequent issue of the "OUTLOOK."

The election of officers was an important item of business, and resulted as follows:—

President, F. J. Tees, elected previously; Vice-President, D. McCallum; Sec.-Treasurer, W. Stewart.

The following Presidents of the various affiliated clubs form the Committee of the Athletic Association: Rugby Football Club, E. N. Martin; Basketball Club, B. H. Higgins; Association Football Club, J. Forbes; Boxing Club, W. Muir Edwards; Harriers Club, D. Ross; McGill Skating and Hockey Club, H. L. Sims, Vice-President.

The Harriers Club was received into the Athletic Association and now takes its place as one of the affiliated clubs. The Association is thus strengthened by the addition of an active and rapidly growing organization, while the Harriers Club will doubtless derive considerable benefit from the union. It is also considered probable that the Fencing Club will seek affiliation in the near future, and there are rumors of a similar action on the part of the Rifle Club.

THE FENCING CLUB.

A meeting of the McGill Fencing Club was held on September 29th, to arrange for classes this term. Hours have been selected on Tuesday and Thursday of each week at 5 o'clock and 7 o'clock. Additional hours will probably be set apart later in the term. For the present Prof. Nobbs will act as instructor, and all classes will be held in the gymnasium, but the club is endeavoring to secure an instructor from the M. A. A.

The prospects of the Fencing Club

this year appear very bright. Increasing interest seems to be taken in this branch of athletics, and the executive expect a large membership roll. The officers for this session have not been elected as yet, but a meeting will be held for this purpose on Thursday, October 13th.

HARRIERS CLUB ORGANIZED FOR THE SEASON.

The Harriers have set a laudable example to other college clubs by organizing early in the term, and beginning to practice for the cross country almost as soon as college opened. The meeting for the election of officers was held the week before last, and the following gentlemen will hold the offices this term:—

President—Dave Ross, Sci. '06.

Vice-President—Percy Wright, Med. '07.

Sec.-Treasurer—W. J. Scott, Med. '05.

A very important item of business was the matter of uniting with the Athletic Association. It was decided to apply for membership in this body.

The runs of the club are held on Monday and Wednesday each week at 5 o'clock. The number of men who are turning out is even larger than last year, and that is an especially encouraging sign, a goodly number of these are freshmen. There seems every prospect that the Harriers Club will enjoy a most prosperous and successful season, and that the number of men who turn out for the cross country later on will be greater in numbers and in better condition than ever before.

ROYAL VICTORIA COLLEGE ATHLETIC CLUB.

The present session bids fair to be a very successful one for the Athletic Club. The members of the club

have all shown their interest by the warm welcome which they have given Miss Fotheringham, our new Physical Director. Miss Fotheringham is a Montreal High School girl, class of 1900, and is a graduate of the Sargent School of Physical Training. She comes to us from Toronto, where she has been Physical Director for two years. Already there has been a large attendance at the gymnasium classes, and a more general use of the gymnasium has been made during the day.

The first general meeting of the R. V. C. A. C. was held on September 26th. It was decided to hold a tennis tournament. Twenty girls are playing in the tournament, and the finals will be played Saturday, October 15th. Miss Sharp, '06, is captain of the tennis club.

Fencing will this year form part of the regular gymnasium work, and will be taught by Miss Fotheringham.

Basket ball will follow close on the tennis. Inter-Class matches will be played as before. The graduating class of 1904 presented the club with a trophy cup. It is now held by the class of 1907. Miss Hill, '05 is captain of the basket ball team.

The formation of the baseball club of the R. V. C. (see Y. M. C. A. Hand-Book, 1904-5, page 36) seems to have awakened widespread interest in athletic circles. The following was received a few days ago:

J. Hill, Royal Victoria College, Montreal. Captain Hill—a McGill student who goes with my sister told me you had a baseball team, we want to get a game with any school or collige fourteen years or younger. Therefor we challenge your club to a friendly game next saturday at 2 o'clock on fletcher's field. please answer this through the sporting page of the herald and oblige.

Your truly, William Power, Captain Aberdeen rosebuds.

About the College.

MCGILL GLEE AND BANJO CLUB.

The coming season promises to be a brilliant one in the history of the Glee and Banjo Club, which already has actively begun the work of organization under the direction of a capable staff of officers. Among these will be noticed some of last year's "bright particular stars," including "Chet" Waterman, who will be remembered by all who attended the club's last concert for his dainty production of the rare old Spanish Tarantella; also Mr. Hindley, who on the same occasion, with a paper megaphone and considerable originality evolved his phenomenal "Stunt," otherwise an imitation of an aggravated talking machine.

At the close of last session the club found itself in a very comfortable condition financially, and is enabled to begin work without the squeeze generally incident to the commencement of such organizations. It has, therefore, been found possible to secure the services of a leader well-known in musical circles, and practice will commence at once. In past seasons members found themselves handicapped by the fact that practices were a matter of "visiting round," there being no permanent meeting place, but this year it is confidently hoped that the club will secure permission to meet regularly in the Conservatorium.

For the holidays, a five days' tour in Ontario is planned, when the club expects to score even a greater hit than in Sherbrooke and Richmond last year. It is earnestly desired that every student who has ever played or sung should turn out, as it is the object of the management to secure a much larger membership than ever before. The fee is small and the advantages from the musical

training are so great, that there should be no difficulty in raising the number of members to fifty or over.

The list of officers for the year is as follows:—

Hon. Pres.—Dean Bovey.

President—C. Waterman, Med. '05.

Vice-Pres.—W. G. Brown, B.A., Sci. '06.

Secy.-Treas.—J. G. Hindley, B.A.

Business Manager—G. W. McKay, Sci. '07.

Committee—Medicine, A. R. Robertson, '05; Arts, E. B. Rider, '07; Science, H. Lamb, '07.

Y. W. C. A.

On Wednesday, September 27th, a tea was given by the Y. W. C. A. to welcome the new-comers and to introduce them to the Society. A short time was spent in social intercourse, giving all an opportunity to meet the freshmen after tea was served, the President, Miss Bowman, gave a hearty welcome to all. She especially pointed out the aims and advantages of the Association, Mrs. Plumptre also addressed the meeting. She urged the younger ones to make the very best of their lives, and the older ones to realize their responsibility; that they were not only to act in order to be an example, but also to help others with their sympathy. In Miss Oakeley's address, she showed that knowledge was not everything for the ideal woman, but she must have insight and tact. After a solo rendered by Miss Gilmor, the pleasant hour ended.

On Wednesday, October 5th, the meeting was in charge of the President. She gave a very helpful address, after which the claims of the Missionary and Bible Study Classes were presented and all were asked to join.

A GIFT TO THE DELTA SIGMA SOCIETY.

The days when the Delta Sigma Society looked with envy upon the R. V. C. Athletic Association, with its two handsome trophies, are now over; thanks to the generosity of Mr. Richard Hemsley, of Montreal. The bronze tablet, which Mr. Hemsley has given to the Society, is to be used as a trophy for the Inter-class Debates. This system of Inter-class Debates, is of very recent origin, having been first instituted during the session of 1902-03. It grew out of the custom of holding an annual Sophomore-Freshman Debate, which still takes place as one of the series. It is to be hoped that the newly acquired trophy will be an incentive to even yet more ardent labour on the part of the Inter-class debaters, so that the friends and members of the Society will have a much higher class of debates presented to them, than they have had in the past. The first debate for this trophy will be the Senior-Junior Debate, which is to be held on October 21st.

DELTA SIGMA.

Even as the graceful bud presages the future splendour of the perfect blossom, so does the initial meeting of the Literary Society of the R. V. C. promise a delightful year. The new President, Miss Moule, rose to give her welcome cheered by the sight of many rows of faces—sage Senior faces, sobered by the thought of many a peril passed; joyous Junior faces, glad that time tables have assumed a less terrifying aspect; stern Sophomore faces, conscious of a dignity freshly acquired; and Freshman visages, absolutely indescribable in the many changes of

emotion which may wring the Freshman heart. The President's words were cordial and inspiring. She gave a courteous greeting to the members, new and old, telling them of the purposes served by the Delta Sigma Society, and of the glory to be gained in the various arenas it affords. In referring to the prize offered last year by an unknown friend and contested for by the Essayists of the Society, Miss Moule ventured the hope that some kind fairy would whisper to our anonymous benefactor to continue his tender mercy so much appreciated by us all, those whose forte it is to follow in the steps of Bacon, and those who can only applaud the laurel-crowned. There was manifest much enthusiasm when Miss Moule announced the glad news that the winners of the Inter-Class Debate would this year have the honour of being the first class to possess the new Richard Hemsley trophy.

The meeting was here given over into the hands of Miss Pearson and Miss Michaels, who had engaged, jointly and severally, to expound the beauties of the Bab Ballads. Miss Pearson opened fire by reading in tones of sympathetic appreciation that most lamentable of Gilbertian ditties, "The Yarn of the Nancy Bell." Followed the ballad of "Gentle Alice Brown," one of the most pleasing of all the Bab Ballads, pointing as it does the earnest moral lesson that maidens must conform strictly to the parental authority in the choice of lord and master. This ballad is particularly notable in its insight into the recesses of the feminine heart. What could be more illuminating than the following verses:—

"I've studied numan nature, and I
know a thing or two:
Though a girl may fondly love a
living gent, as many do—

A feeling of disgust upon her senses
there will fall

When she looks upon his body chop-
ped particularly small."

Having followed the Gentle Alice through her troubled career to a safe matrimonial haven, the audience was asked to listen to the remarks of Miss Michaels upon the Bab Ballads, after which the reading of "Thomas Winterbottom Hance," and "The Girl Graduates," by Miss Pearson brought the meeting to a close.

NOTES OF OTHER COLLEGES.

The Boston School of Technology is rejoicing over its new athletic field and track at Brookline. For many years this promise has been held out to them, and at length has materialized. The track is a standard quarter-mile one. The baseball diamond is located in the east end, the football field in the centre, and the remaining ground is occupied by tennis courts.

The athletic is without doubt one of the finest in the States, costing \$10,000. It was donated by a generous benefactor, after whom it will be called the Wigglesworth field.

From the Minnesota Daily comes the following:—

The girls are about to organize a "Rooters' Club" on the same plan as the former co-ed rooters' club of last season.

Usually the captain has been one of the basket ball girls, but this year the basket ball players think that they are doing their share in the work of keeping up college spirit by playing on the team, and will leave the work of calling meetings and the honor of being captain to girls not personally interested in athletics.

Last year Minnesota Co-ed Rooters Brigade had a reputation that

reached every college in the U. S., and this year they will have many imitators.

With the experience and encouragement they received last season, they expect great things of the club this year.

The "Abolition of the Rush Party" might find a few supporters at McGill, if the rushes were of such a serious character as the following: After one of the roughest "tank scraps" ever held in Purdue University the sophomores danced about a group of about 400 freshmen bound hand and foot and fastened to a long chain. The annual clash between the freshmen and sophomore classes resulted in thirty injuries, some of which are thought to be serious.

The Minnesota Daily recently achieved a triumph by getting out an extra on the occasion of a disastrous fire in the main building of the college.

Fire which destroyed the Main building broke out at five o'clock. Nearly the whole fire department was called, but before they started operations the fire was beyond control, and in two hours the building was a ruin, being completely gutted with part of the walls caved in.

The main building and its contents were valued at \$135,522, divided as follows; building \$125,000 and contents \$10,522.

The loss was a total one.

Wittenberg College was the scene of a big class fight between Sophomores and Freshmen last week. The Sophomores issued rules of conduct for the guidance of the Freshmen and the latter in retaliation constructed an effigy of the Sophomore class and placed it upon the campus. A fight ensued lasting all night. When morning came the Freshmen had not been dislodged from their position. The scrap was stopped by the faculty.

EXCHANGES.

Arts Freshie (reading Virgil), "Three times I strove to throw my arms about her neck and"—that's as far as I got, sir.

Proff—Quite far enough I should think. Next man! —Coll.

Janitor (explaining the theory of the rifle to ardent freshmen), now the bullet of this rifle will go through twelve inches of solid wood. Look out for your head!

Law, '07—What is a legal tender.

Med., '07—A licensed bartender. Haw! Haw! Haw!

ADVICE TO FRESHMEN.

Words of Fatherly Wisdom to Smooth the Rough Path of '08.

Listen attentively to all advice, especially that of the Sophomores, but use your own mother wit.

Believe everything you hear.

Pin all your brass medals and high school badges to the front of your coat, then fold it away in your trunk and leave it there.

Write to your mother at least once a week, but don't write to your father more than once a month—he'll be more apt to send it to you.

Get into some student activity. Decide what you like best and what you are best fitted for, then go after it immediately. Don't stand back because you are a freshman. If you have ability and show it without talking about it or "butting in," it will be recognized. Without a hobby half of your college life will be lost, so choose something and throw your every energy into it and begin now. If it's football turn out and practice. If it's debate join a club. If it's newspaper work send in your squibs to the OUTLOOK. If it's politics wear a ready made smile and a leather glove and go to work now.

Organize your class; adopt a yell; get acquainted with each other; stand together and study the record of '06.

A TIT-BITS TRAGEDY.

They were in a magnificently decorated room in the west end of London, they approached each from opposite directions, one of them was as pale as a ghost, the other blushing red as a cherry.

Presently they met, and careless of the fact that dozens of eyes were watching them, they kissed each other. The meeting seemed to bring them perfect peace, but alas! alack! They had scarcely been side by side for 20 seconds when a man approached, the fire of battle in his eye. With cool insolence he raised the sack he carried, and then—oh horror!—he struck a sharp quivering blow, and the pale one was sent spinning several feet away.

The other neither screamed or fainted. There was no heart breaking, no resentment, not even a murmur.

Billiard balls are used to that sort of thing!

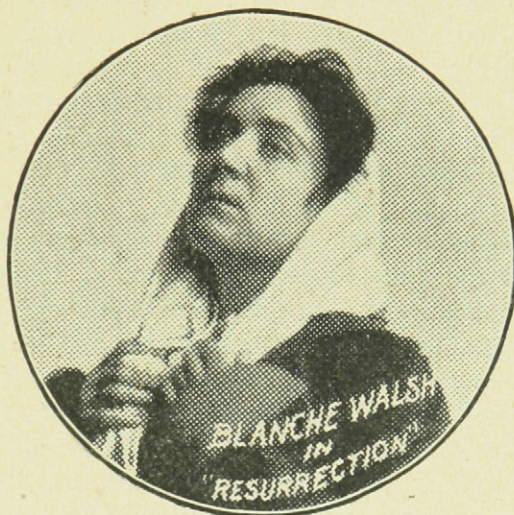

ANSWERS TO CORRESPONDENTS.

J. Green—For the seventh time we would like to inform the members of '08 that Principal Peterson does *not* live in the stone house by the gate.

HIS MAJESTY'S THIS WEEK.

Blanche Walsh, whose artistic ability was long since recognized and proclaimed in Montreal, begun a week's engagement last night at His Majesty's Theatre, in the original dramatization of Tolstoi's world famous novel, "Resurrection." A very large and representative audience was present, from which Miss Walsh won a well deserved ovation.

Those who seek the theatre for idle diversion, those whose enjoyment of the drama is limited to caricatures, topical songs and horse-play, had better remain away from His Majesty's this week, for they would vote it pretty slow.

But those who enjoy a powerful drama, a drama that goes to the very core of human emotions, a drama that is an exercise for their brain matter, and, moreover, those who care to see a sample of genuine histrionic art, if not genius, would do well to see Blanche Walsh in "Resurrection." An opportunity such as this comes but once in every few years.

CLASS REPORTS.

R. V. C. 1905.

Once more we find ourselves at Old McGill; this time, to enter our fourth and perhaps our final year. We cannot deny that we all enjoyed ourselves during the vacation, though strangely enough, it is taking an unusually long time for the reaction to set in. Even to get tennis started seems to be a matter of great difficulty, but for this we can thank only the rain and the weather in general.

To keep up our reputation of former years, we have already begun business. For two years we have held the Debating Championship, and let us hope that this year with our famous debaters—we may succeed in winning the beautiful bronze tablet which has been presented to the Delta Sigma Society by Mr. Hemsley.

To the girls of the graduating class of '04, who have returned to continue their noble pursuit of learning, we extend a hearty welcome and we feel that their presence will be a source of great pleasure to us.

At a meeting of our Class held last week, the following officers were elected:—

President—Miss Idler.

Vice-President—Miss Pearson.

Secretary—Miss McCoy.

R. V. C., 1906.

"Me reporter! Why I couldn't write a class report to save my —." Here she stopped, unable to decide whether "head" or "neck" would make the more impressive ending. It was rather perplexing to say the least. Nothing but a Delta Sigma debate could possibly solve the question as to which of these articles is the more necessary for a comfortable existence. "Nonsense, it's quite

easy," said the girl who knows, coming up with a superior air. "Let me see" (musingly), "you always begin by being back at college you know, and say how glad everybody is to see everybody else. Put in something about McGill's classic shade, and about the responsibility of being juniors who have successfully passed through the trials and tribulations of the intermediate exams." So saying, she beamed triumphantly upon her friend who sat disconsolately twirling her pen. Time after time she had started a sentence, only to give up in despair, and now she was passing the time making Chinese puzzles, and eccentric spirals and curves in the corner of the paper. Somewhat encouraged by these remarks she started again, and this time succeeded in producing a fairly well constructed paragraph, according to directions.

"Not so bad," was the comment, "of course you will be able to do much better when you have taken the course in English composition. Now, you ought to say something about any changes that have taken place in the membership of your year." This was a happy suggestion, and the amateur journalist waxed eloquent, telling of the great blank caused by the absence of three of the girls who had helped to win fame for '06 in intellectual and athletic pursuits, and of the joy with which four new members had been welcomed.

This idea brought to her mind a recent class meeting and, delighted at having an idea of her very own, she proceeded to record the names of the class officers.

President—Miss Clark.

Vice-President—Miss Stanton.

Sec.-Treasurer—Miss Eckhardt.

Reporter—Miss

She had reached this point when the G. W. K., coming round to peep over her shoulder, uttered an exclamation of horror and snatched the pen from her hand.

Much aggrieved at this rude interruption of the stream of inspiration, the maiden looked up in bewilderment. "Don't you know" said the G. W. K. in a faint pitying voice, that a reporter never, *never* gives her name? Why, you must not even call yourself that! You must speak of yourself as a 'poor wretch,' or 'unfortunate victim,' or 'unknown quantity.' That is supposed to be your modesty, but it is really a wise provision for your own safety, because, as you will doubtless realize later on to your sorrow, there are occasions when it is just as well for the reporter not to be too well known."

Just then the bell rang and the G. W. K. hurried away to a lecture, leaving the junior with her task incomplete and in a general state of bewilderment, unable to decide what title would best describe her own situation, and with just a faint suspicion as to whether the G. W. K. really knew as much as she thought she did.

R. V. C. '07.

Once more we, the illustrious year of '07, have entered the classic portals of the R. V. C.

Until our advent to the Chemistry Lecture Room we thought we had overcome all feelings of timidity which, as freshmen, we may have experienced. It is beyond the pen of mortal to describe what new "horrors" greeted us there.

On Friday, September 23rd, Miss Oakeley and Miss Cameron welcomed all the members of the R. V. C. We wish to thank them for their kind addresses.

The election of our officers for the coming year also took place on Friday. After much discussion and

many eloquent speeches the following members were chosen:—

President—Miss C. M. Cheesbrough.

Vice-Pres.—Miss L. M. King.

Ses. Treas.—Miss L. J. Couture.

Miss King, Miss Couture and Miss Eaton have acquired such a habit of taking exhibitions, that now they are only satisfied with the first three. We all wish we had this habit.

R. V. C. '08.

The first meeting of '08 was called by Miss Idler on Monday, September 26th.

The officers elected were as follows:—

President—Miss Germain Sauvalle.

Vice-President—Miss Bessie Wisdom.

Sec.-Treas.—Miss Anna MacKeen.

Reporter—Miss Gertrude Plaisted.

Representative to Alma Mater—Miss M. McDonald.

There are in our year nineteen undergraduates besides quite a number of partials. We hope it will be a very successful year.

One meeting has since been held when the question of hours for the gymnasium was the chief matter brought up.

Invitations have been issued by the Sophomores for a tea to be given in honour of the freshmen on Monday, October 10th, in the common room.

ARTS, '06.

'05 has finally started upon the last lap of the collegiate cycle path. During the summer a few like sheep have gone astray to browse on more congenial fodder than the kind of diet doled out by the Arts Faculty at the rate of 61 plunks per annum with an additional plunk for dessert à la Undergraduate and à la Literary Societies. Notwithstanding the absence of these we can't complain, see-

ing that we have with us again a few whose re-appearance we had not reckoned on. Rabinovitch, for instance, is back whom we thought had gone to the Russo-Jap war to murderovitch the Japanski. Delightful as such an occupation would be for such an ardent patriot as Rab, he has deemed it safer and more conducive to longevity to do a little dissecting for the winter with the Meds. and take a little course in Arts to keep him in touch with civilization. Crane has condescended to suppose that McGill is possibly good enough for him after all. Ower, the mascot of the year, is also back. We may mention the fact that Ower had intended spending the winter in the Holy Land, where in conjunction with the great Polish archaeologist Polowagski he purposed doing some excavating in the town of Ur to find out whether that historic spot was named after him or vice versa. Lack of funds has unavoidably delayed this great project for the search of truth.

❖ ❖
THE '05 POW-WOW.

At a recent pow-wow of the braves of this tribe, the executive outfit of the same was overhauled in thus-wise fashion. For supreme great chief Tomahawker, Howhyt, a brave and upright politician was chosen. To him an armor-bearer was given, one Stew-hard, a mighty fleet man. The money-scribe job was assigned to one Blandard, a fairly honest man, and for high chief guardian of the money-bags, one King was chosen, a generally wise man and no great thief either. To chronicle the mighty deeds of the tribe, our weary scribe was ordained, a just chronicler and great liar.

Our great chief Tomahawker was sent to the convey of the Phreshmen, a disorderly rabble of young bucks, to give unto them words of wisdom and advice and impress on

them the duty of paying honor and respect to the great tribe of the Seniorites. After these doings the great pow-wow of the mighty tribe of the Seniorites was dissolved, and so ends the chronicle.

❖ ❖
ARTS, '06.

At a recent meeting of Arts '06, the following officers were elected:—

President—Carr.

Vice-President—Barclay.

Secretary—Payne.

Class Historians—Payne, Cousins, Shearer.

Our latest acquisition is a beautiful creation of the S. S. S., of luxuriant growth, with the official Wilhelm twist. The happy owner, Mr. F——n, is to be congratulated on the short time in which he produced the work of art; but we beg of him to cut it off. We fear that it will have a demoralizing effect on the Freshies.

Problem: How can fifteen men read the same book at the same time?

Send answers to Prof. L——.

Where does the money go when the reporter comes around? Buck up and subscribe for the OUTLOOK immediately.

❖ ❖
ARTS, '07.

The good ship "Naughty-Seven," is now well under way for her second voyage—with a much smaller passenger list than on her first. Within a short time she will be fairly at sea—which same might also be said of the passengers.

But to return to *terra-firma*, here we are again, sadly reduced in numbers, but full of great enthusiasm and vacation fish-stories.

Naturally the cat came back, and the truth was at once made evident that a "Cat may look at a Presidency." Still, with all due deference to the gentleman in question, we

doubt if he can altogether fill the late President's shoes! (Lie down, Freddy!)

We suppose it is up to us to say something about the gentlemen of '08. We are afraid that they are not overburdened with a sense of gratitude. After we had given them such a nice flag they might have kept it—but they didn't. They might easily have done so by putting their heads together and making a *dense* formation!

We take this opportunity of handing the Freshmen a few weighty chunks of solid advice.

Do not incur the everlasting enmity of the gentleman in the gray uniform by mistaking him for the Dean—he is "Mr. Lunn, sah!"

Further, beware of supposing that, because he hands out cheap laundry slips, he also takes in washing.

For further advice we beg to refer the gentleman of '08 to the tender mercies of Mr. Geo. V. C—s—us of the Third Year, and Mr. Socrates H. Huntley of the Second. [N. B. We had thought of calling the last-named worthy "Diogeues," but it occurred to us that Diogeues spent some of his time in a tub].

We must now leave the troubles of the Freshmen and come back to our own. The loss of Mr. P—l—t—r has made the '07 Museum idea impracticable. Then we thought we were to be left without a single piece of Real Irish among us, but the welcome, though belated arrival of Mr. Arthur G—n's wonderful smile relieved us of that painful feeling. Cheer up boys, the worst is yet to come. Passing over such minor worries as McDougall's recently-acquired fondness for a pipe, and Heward's new-found craze for cigarettes, we come to the final blow. The unkind Fates, in the form of the Faculty, decreed that Monty should fall back into our midst. There is but one consolation. We can thank heaven it wasn't C—us!

LITERARY NOTES.

(1) Mr. H—ly's new book, "If I were President," has just appeared. This work shows in a marked degree the author's wonderful powers of imagination.

(2) Mr. F—k P—k is at present engaged in editing a new edition of "Back to the Woods," illustrated by himself.

(3) In view of the fact that Mr. Feltham failed in his essay on Woman owing to lack of acquaintance with the subject, we would suggest that Mr. B—y—a start writing on the same topic immediately. No such disadvantage could worry *him*.

ANSWER TO CORRESPONDENT.

E. G. T. P. No! The English lectures thus far have not been on the hog—they have been on Bacon.

* * * * *

SHAKE, CHANDLER! ! !

ARTS, '08.

Although the Sophomore-Freshman rush, in the whirl of after events, appears almost to have passed into the realm of ancient history, yet it is only fitting that mention of it should be made here.

The rush was remarkable inasmuch as it introduced a new feature in the style of these encounters. The Sophomores had the self-set task of getting possession of a flag which was fixed about seven feet from the ground. This flag the freshmen defended. The Sophomores, after a little strategy on their part, got the flag, but they kept it only with the greatest difficulty until the whistle sounded "time."

Altogether it was an enjoyable tussle, and the new form has many points to recommend it.

Now that the rush is over matters are settling down.

The next rush, in all likelihood, will be in the direction of the Treasurer's office,—this time to "settle up."

A side wind brings the information that the Sophomores have unostentatiously stretched out the hand of good-fellowship towards the Freshmen. This spirit is cordially appreciated and reciprocated.

We should like to know if some ecclesiastical influence is radiating through the building, for I—mb—k. the other day referred to the janitor as "the sexton." It is rather early in the term to think of ringing a knell over the shattered hopes of academic aspirations.

Thanks are due to the college Y. M. C. A. for entertaining the Freshman class on Friday evening, September 23rd. It was broadly hinted that the function was arranged, for the one part, to let the Freshmen get to know each other in view of the expected rush. But surely such warlike proceedings are altogether foreign to the principles of the Association. However, perhaps the Association takes shelter behind the maxim, "If you wish for peace, prepare for war."

SCIENCE, '05.

Back again, with thoughts of joyfulness the members of Science, '05, have again assembled to enter upon their last year and to conduct themselves as grave seniors from whom the other years should take example. A few, however, are missing, some of whom are endeavoring to obtain a practical knowledge of the work by going into the field for a year, while others have fallen into the clutches of the grim reapers and are forced to look upon the class from a distance.

The first duty of those who have again fallen in line was to elect officers. These are as follows:—

A. K. MacCarthy—President.

D. A. MacLean—Vice-President.

Geo. Kydd—Secretary.

H. H. MacMillen—Class Reporter.

E. Jost and L. Burpee—Reading Room Committee.

T. M. Fyshe—Representative in Alma Mater Society.

Congratulations are in order for the above, and especially for Mr. T. M. Fyshe, who has since been elected to the Presidency of the Alma Mater Society.

This is the first time also that thanks with congratulations could be given from the class to the Editorial and Business Board of the '05 Annual. They have certainly produced the best Annual so far published, and the members who gave their time and energies to it deserve great credit.

On account of its coming out a little later than expected, some were unable to obtain copies. The Business Board are anxious that all members who intend to obtain copies will do so as soon as possible, as the accounts must soon be closed.

Since congratulations seem to be the principal topic of this week's issue, there is one member of the class who should not be forgotten.

A romance begun in the 2nd Year and continued through the 3rd, reached its culminating point a few days before the beginning of this term, when Mr. Geo. A. Johnstone decides to renounce the joys of bachelor life and to enter the routes of the benedicts. To Mr. and Mrs. Johnstone the class extends their best wishes for domestic felicity.

We regret that Prof. Chandler has been unable through illness to resume his class work for the beginning of this session. We hope, however, to see him after Xmas, if not to have him expound the mysterious big D and little c to our successors, the class of 1906. We also miss our genial artist this year, who has severed his connection from us. To

whom shall we now look for our various designs and caricatures which made the annals of '05 so much ahead of other years.

Mr. C. H. Wright is having published by Carsley & Co., Montreal, a waltz entitled "Idle Moments," which is dedicated to Science, '05. The cover is designed by F. M. G. Johnson, and the publication will soon be on sale at the music stores.

While following "the blazed trail" this summer, our friend, F. Coburn, acquired such a stock of "classic" phrases and "funny" stories," that he is now in a position to try conclusions with our former class champion "Billy Redroad."

The only fault Jack had with Pittsburg was, that the Yankees could not pronounce a good Scotch name.

SCIENCE, '08.

On Friday, the thirtieth of September, our year met for the first time in a business meeting. As is customary the President of the fourth year occupied the chair, until a President had been elected for the class which is going to make itself felt ere long in all branches of college life. The meeting was well attended, and was most enthusiastic. Following was a list of the officers chosen:—

President—O. M. Stitt.
 Vice-Pres.—C. M. Ross.
 Sec.-Treasurer—C. W. Drysdale.
 Football Captain—A. A. Pratt.
 Representative to Alma Mater Society—G. Pitts.
 Reading Room Committee—G. Raphael and A. Shanks.

One of our first duties was to keep an appointment with '07 outside the Physics Building. We enjoyed ourselves immensely, each one doing his best to entertain one or more of the Sophomores. They didn't appear to appreciate our efforts, however, as they seemed pleased when the affair was over and we dispersed for lunch.

Too bad that Stitt's injured foot is preventing him from turning out to the football practices.

Did you see John on McGill College Avenue the other day?

MEDICINE, 1907.

How do you do?

Anybody can have this honorable appointment of class reporter for the asking.

"We do not advertise in the Gazoot."

The newspaper reporter who saw the medicine "rush" as reported in the above publication is strongly urged to consult an oculist before it is too late. That '08 had the "beef" we will not deny, but it was a glorious day for the gray matter of '07. If one of the invited participants had only accepted, and brought his paramoecium with him, it would have been (if possible) even a more realistic battle of marathon.

We regret to announce the serious illness of two of our number, Messrs. J. W. Thompson and J. H. Paterson, who are under treatment at the Royal Victoria and General Hospitals respectively. Medicine '07 wishes them a speedy return to health—and work.

THE DANCING SCHOOL

McGill Class meets Saturdays 7.15 p.m.
 — A SPECIALLY LOW FEE —

KARN HALL - - 2362 ST. CATHERINE ST.

Everybody dances instinctively, just as everybody sings; but they need instruction in the dances used commonly, to develop the intuition. The best instruction is not too good for you. Should you make the mistake of entering a dancing hall school where the aim is gain, you are just as likely to be neglected. The little grace we have WE WANT TO KEEP and develop. A School of my standard appreciates this quality, and instructs so as to add to that we already have.

The METHOD is simplicity itself; the merest child can comprehend it, and is based on scientific principles; requires just half the time to become an adept.

A. ROY MACDONALD, Teacher

On Thursday afternoon half of our class had a half holiday, and all were free at 4 o'clock to attend the university lecture by the Principal. The score 6-1 was not a fair indication of the play, as Caps were really entitled to a better showing. It was a grand lecture.

The refreshing anatomical ideas of the gentlemen of '08 are only surpassed as smilee-producers by the attempts of some '06 men to display

A superior knowledge of anatomy in the dissecting room, oblivious to the fact that their smattering of last year has vaporized into a few misfit recollections.

Some of us are back again, and some of us are back—in First Year again.

At this season our heart-felt sympathy goes out to the poor unfortunates—the members of the class in Biology.
